Forecast For Grampian
Issued by Met Office Aberdeen
at 0400 on Sunday 25 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry with long spells of warm or very warm sunshine.

Today:
Early low cloud and mist soon burning back to the coast to leave another dry and largely sunny day. Patchy low cloud may return to coastal parts at times. Warm or, especially in west, very warm again with light winds. Maximum temperature 24 deg C (75 deg F).

Tonight:
Some late evening sunshine then, in west, clear spells. Low cloud spreads inland again from the coast overnight with some rain and drizzle towards dawn, perhaps heavy in far northeast. Minimum temperature 10 deg C (50 deg F).

Monday:
Rather cloudy with outbreaks of showery rain across the northeast. Elsewhere becoming brighter with some warm sunny spells developing along with some heavy, slow moving afternoon showers. Maximum temperature 23 deg C (73 deg F).

Outlook for Tuesday to Thursday:
Much cooler and becoming increasingly unsettled with showers or longer spells of rain, these heavy and perhaps thundery at times.
